

IDAHO POTATO PULSE

Brought to you by the Idaho Potato Commission
Website: www.idahopotato.com

Here are the harvest dates for new potato varieties at the Parma Research Station. Industry members are invited to attend and view these new varieties.

Early regional - August 2nd (22 russet-skinned selections with potential for early fresh or processing)

Specialty tri-state - August 3rd (14 colored-skin selections)

Late regional - September 28th (24 russet-skinned selections with potential for fresh or processing)

All evaluations will start about 8 a.m. for anyone that would like to see these potential new variety releases. The address for the SW Idaho R&E Center is 29603 U of I Lane, Parma.

For more information, you may contact Dr. Mike Thornton at (208) 722-6701, Ext 211 or by email at miket@uidaho.edu.
