Yield (cwt per acre)	480	495	500	500	505	505		25	5%

Seed includes seed, hauling and the cost to cut and treat seed.

Chemicals & pesticides include: herbicides, insecticides, fungicides and sulfuric acid for vine desiccation (when used).

Irrigation includes water assessment, repair costs and power cost.

Machinery costs include fuel, oil, lube and repairs.

Labor includes labor to operate machinery, truck drivers, general farm labor and irrigation labor.

Other costs include crop insurance and assessment fees to grower organizations and the Idaho Potab Commission.

Overhead is a calculated value at 2.5 percent of operating costs to account for office expenses, legal and accounting fees and utilities.

Management is a calculated value at 5 percent of expected revenue.

Note: earlier CAR estimates were revised for procedural consistency, so the costs may not always match the original published values.

\* Tranloading costs are mostly labor, but also include the operating and repair costs on an even-flow bin, conveyers, sizer with dirt eliminator and pier.
