FEEDING AMERICA
Learn more at countrycrock.com

In test programs at six retail chains last year with limited marketing, a joint Idaho® potato and Country Crock® promotion drove growth in both volume and sales for potatoes, the most cooked dish with Country Crock® (after spreading on toast). This year, the new “Buy, Get, Give” promotion will receive national marketing support that includes in-store signage, FSIs, and a new Country Crock® television commercial featuring a mashed potatoes dish.

“Last year’s test program was very successful, and we’re anticipating an even bigger and better promotion this year with the wider visibility from the marketing support we’ll be adding,” says Seth Pensler, vice president, Retail/International, Idaho Potato Commission. “The ‘Buy, Get, Give’ promotion puts the price of premium Idaho® potatoes well under the price of non-Idaho potatoes or retail competitors’ potatoes. In addition, the shopper and retailer can feel good about helping to give to a family in need during the holidays, thanks to the new charity tie-in with Feeding America.”

Positioning Country Crock® Original buttery spread near Idaho® potatoes in the produce department also makes it a snap for shoppers to grab both products and the promotional coupon. Unopened Country Crock® Original 45-ounce buttery spread can be comfortably placed outside of refrigerated retail space for 34 days.
