Food and Agricultural Import Regulations and Standards - Certification

FAIRS Export Certificate Report

Approved By:

Michael Conlon, Agricultural Counselor

Prepared By:

Moises Huerta, Agricultural Specialist

Report Highlights:

This report includes Colombia's import requirements for import permits and export certificates for multiple food products for human and animal consumption. It also provides a list of the Colombian government agencies involved in the entry of imported food products.

DISCLAIMER: This report was prepared by the Office of Agricultural Affairs of the USDA/Foreign Agricultural Service in Bogota, Colombia, for U.S. exporters of domestic food and agricultural products. While every possible care was taken in the preparation of this report, information provided may not be completely accurate either because policies have changed since its preparation, or because clear and consistent information about these policies were not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their foreign customers, who are normally best equipped to research such matters with local authorities, before any goods are shipped. **FINAL IMPORT APPROVAL OF ANY PRODUCT IS SUBJECT TO THE IMPORTING COUNTRY'S RULES AND REGULATIONS AS INTERPRETED BY BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY.**

Section I. List of All Export Certificates Required By Government (Matrix) :

Product(s)	Title of Certificate	Attestation Required on Certificate	Purpose	Requesting Ministry
Beef	ICA Import Zoosanitary Permit FSIS Export Health Certificate/ Sanitary Certificate	Fulfill health/sanitary requirements according to import permit and sanitary inspection.	Animal health and food safety	Ministry of Agriculture (Institute of Colombian Agriculture- ICA) and Ministry of Health and Social Protection (MHSP) - National Institute for the Surveillance of Food and Medicines (INVIMA)
Dairy products	Import Zoosanitary Permit AMS Export Health Certificate/ Sanitary Certificate (except for re-exported dairy products for which APHIS will issue export certificates)	Fulfill health/sanitary requirements according to import permit and sanitary inspection.	Animal health and food safety	Ministry of Agriculture (Institute of Colombian Agriculture- ICA) and Ministry of Health and Social Protection (MHSP) - National Institute for the Surveillance of Food and Medicines (INVIMA)
Fish, Crustaceans and Molluscs	Fish: Import Zoosanitary Permit (only whole, uneviscerated)	Fulfill health/sanitary requirements according to import permit and sanitary	Animal health and food safety	Ministry of Agriculture (Institute of Colombian Agriculture- ICA)

	Crustaceans: Import Zoosanitary Permit (only uncooked) Molluscs: Import Zoosanitary Permit (only uncooked) Export Health Certificate/ Sanitary Certificate	inspection.		and National Authority of Fisheries and Aquaculture (AUNAP)
Fresh Fruits and Vegetables	Import Phytosanitary Permit Phytosanitary Export Certificate	Fulfill health requirements according to import permit and sanitary inspection.	Plant health and food safety	Ministry of Agriculture (Institute of Colombian Agriculture- ICA) and Ministry of Health and Social Protection (MHSP) - National Institute for the Surveillance of Food and Medicines (INVIMA)
Grains	Import Phytosanitary Permit) Phytosanitary Export Certificate	Fulfill health requirements according to import permit and sanitary inspection.	Plant health and food safety	Ministry of Agriculture (Institute of Colombian Agriculture- ICA) and Ministry of Health and Social Protection (MHSP) - National Institute for the Surveillance of Food and Medicines (INVIMA)
Live animals	Import Zoosanitary Permit Export Health Certificate/ Sanitary Certificate	Fulfill health requirements according to import permit.	Animal health	Ministry of Agriculture (Institute of Colombian Agriculture- ICA)
Pet Food	Import Zoosanitary Permit	Fulfill health/sanitary	Animal health	Ministry of Agriculture

	Export Health Certificate/ Sanitary Certificate	requirements according to import permit and sanitary inspection.		(Institute of Colombian Agriculture- ICA)
Pork	Import Zoosanitary Permit Export Health Certificate/ Sanitary Certificate	Fulfill health/sanitary requirements according to import permit and sanitary inspection.	Food safety/ Animal Health Protection	Ministry of Agriculture (Institute of Colombian Agriculture- ICA) and Ministry of Health and Social Protection (MHSP) - National Institute for the Surveillance of Food and Medicines (INVIMA)
Poultry	Import Zoosanitary Permit Export Health Certificate/ Sanitary Certificate	Fulfill health/sanitary requirements according to import permit and sanitary inspection.	Food safety/ Animal Health Protection	Ministry of Agriculture (Institute of Colombian Agriculture- ICA) and Ministry of Health and Social Protection (MHSP) - National Institute for the Surveillance of Food and Medicines (INVIMA)
Processed Food Products (not animal derived)	Export Sanitary Certificate/ Certificate of Free Sale	The products exported are produced and marketed in the United States in general conformity with US requirements (must include shipment information)	Food safety/ Fulfill health requirements according to local sanitary authorities	Ministry of Health and Social Protection (MHSP) - National Institute for the Surveillance of Food and Medicines (INVIMA)

Section II. Purpose of Specific Export Certificate(s)

1. Import Zoosanitary Permit

This document is issued by the Ministry of Agriculture (Institute of Colombian Agriculture- ICA) to the local importer and it provides formal authorization to the local importer to import certain animal/animal-derived products into Colombia under certain animal health requirements.

2. Import Phytosanitary Permit

This document is issued by the Ministry of Agriculture (Institute of Colombian Agriculture- ICA) to the local importer and it provides formal authorization to the local importer to import certain plant or plant products into Colombia under certain plant health requirements.

3. Phytosanitary Export Certificate

This document is required by the Ministry of Agriculture (Institute of Colombian Agriculture- ICA) to prevent the introduction of foreign pests and diseases into Colombia. Certificates are issued by USDA.

4. Zoosanitary Export Certificate

This document is required by the Ministry of Agriculture (Institute of Colombian Agriculture- ICA) to protect animal health and ensure foreign animal diseases are not introduced into Colombia. Certificates are issued by USDA.

5. Export Sanitary Certificate

This document is required by the Ministry of Health and Social Protection (MHSP) - National Institute for the Surveillance of Food and Medicines (INVIMA) for food safety purposes. Per Resolution 719 of 2015, food products that are classified as “medium” or “high” risk must submit this sanitary certificate. In the absence of a federal/state authority in the United States that could issue such certificates, INVIMA may accept state-issued certificates of free sale, which will need to be accompanied by a manufacturer declaration with shipment information (product description, lot numbers, expiration dates, etc.)

6. Certificate of Free Sale

This certificate is required for the registration of processed food products with INVIMA. The purpose of this certificate is to provide assurance to the Colombian authorities that the product is fit for human consumption and is freely sold in the country of origin. It is also required by INVIMA for shipments entering Colombia. Registration of the product is valid for 5, 7, or 10 years depending on the risk classification assigned to the product (Resolution 719 of 2015). It may also be required for the importation of “medium” and “high” risk products (see point 5)

Section III. Specific Attestations Required on Export Certificate(s)

A competent government authority from the exporting country has to issue all required certificates and the products must be first registered in Colombia. Please see the FAIRS narrative report to see registration requirements for different products. The certificate of free sale required by INVIMA for product registration and shipments entering Colombia must state that the product is of “free sale” in the country of origin and that the product is fit for human consumption. On the other hand, ICA requires specific attestations and traceability information on export certificates. These export certificates tend to also meet INVIMA’s food safety requirements.

Section IV. Government Certificate’s Legal Entry Requirements

Original export certificates listed under section one must accompany each individual export consignment at the time of entry into Colombia. It should be noted that in most cases, products exported to Colombia for human consumption must meet entry requirements set by ICA (animal and plant health) and INVIMA (human health), particularly animal-derived products. INVIMA and ICA have inspectors at all entry points in Colombia and have the discretion to detain or reject shipments based on their

findings. A common reason for detained shipments has to do with certificates' issuance dates. Food exporters interested in selling to Colombia must register their products before shipping, and must obtain an import permit in Colombia prior to applying for export certificates in the United States.

Section V. Other Certification/Accreditation Requirements

New Regulation on Food Registration and Import Documentation

Decree 539 establishes import requirements at ports of entry (POE) including: 1) Preliminary import approval issued by INVIMA through the Ministry of Commerce's online platform (VUCE), following the guidelines of Decree 4149 of 2004, and Decree 2078 of 2012; 2) product registration; 3) Foods that are exempt of product registration must complete the INVIMA form for food raw materials; and, 4) Sanitary Certificates from the country of origin (Certificates of Free Sale for food considered not to be "high risk" products). Furthermore, Decree 539 seeks to establish a new framework for the registration of high-risk food products of animal origin (except for unprocessed meat), including dairy and fish products imported into Colombia. This new framework ("habilitation") would include the inspection of plants in the United States as a requirement for registration. FAS-Bogota has worked with the GOC on the modification of Decree 539 to consider the "recognition" of the inspection and food safety control systems in the United States for the aforementioned category of products, in order to avoid the original Colombian "plant-by-plant" approach. In January 2017, the GOC notified this draft decree to replace Decree 539 to the WTO; however, the final version has not been published yet. FAS-Bogota expects to see this in 2018.

APPENDIX I. GOVERNMENT REGULATORY AGENCY CONTACTS

<p>Sergio Troncoso, Director Food and Alcoholic Beverages INVIMA Carrera 10 No 64 -28 Bogotá D.C.- Colombia Tel: (57-1) 294-8700 Ext. 3920/3922 Fax: (57-1) 294-8700 Ext. 3920 E-mail: invimasal@invima.gov.co Web site: www.invima.gov.co</p>	<p>Saul Cardozo, Director Trade Relations Ministry of Commerce, Industry and Tourism Calle 28 No. 13 A – 15 Bogotá, Colombia Tel: (57-1) 6067676 Ext. 1634 E-mail: scardozo@mincit.gov.co Web site: www.mincit.gov.co</p>
